Parent/Guardian/Other Adult _____ Signature _____ Date _____
(please print)

The patient's portion of the Camp Sunshine application and physical examination form must be sent in together. Updated laboratory studies and status report will be required 1-3 weeks prior to the Camp session.

Physicians' Guidelines for Camp Sunshine

The medical guidelines for patients who wish to attend Camp Sunshine are as follows:

1. Children are considered medically acceptable to participate in the program if they can be expected to be in good general health at the time of the camp session. We regret that we cannot accommodate patients with renal disease who are on hemodialysis. Children should not attend camp if they are entering into an anticipated period of significant myelosuppression.
2. Children should undergo laboratory testing, when appropriate, prior to attending camp. The "Late Changes" form is to be sent to camp 1-3 weeks in advance of the child's attendance.
3. The Physical Examination form must be completed by the child's subspecialty team and returned along with the child's application.
4. Children should not require any therapy during Camp other than treatment usually administered by parents, with the exception of methotrexate or colony stimulating factors.
5. Children should not require any form of special medical care during the week of Camp, e.g. transfusions.
6. Arrangements for laboratory investigations at Camp should be made in advance by the referring physician, or by the parents with the camp physician upon arrival.
7. **Children or other susceptible family members who have been exposed to varicella (chickenpox) within three weeks of a camp session cannot attend. In the event that a child or family member has been exposed to shingles (herpes zoster), please contact Camp for further guidance.**
8. **Children or family members who have received oral polio vaccine within six weeks of a camp session cannot attend.**
9. Children must be 18 years of age or younger.

If a child does not meet these guidelines, please contact the Camp Sunshine office directly so the situation can be further assessed.

It is the intent of Camp Sunshine to provide a respite experience for seriously ill children and their families with as little medical intervention as possible. A physician will be present at Camp to provide evaluation of acute problems. Other than simple first aid and stabilization of acutely ill campers, however, no treatment will be offered at Camp. Transportation will be provided to a nearby medical facility in the event that other treatment is necessary. It is not the intent of Camp Sunshine to provide routine medical care for other family members.

Thank you for helping us to provide a special respite experience for your patients and their families. It is our expectation that children will be qualified as acceptable for referral by their own treating physicians with the above specifications in mind. Children who do not meet the above guidelines will find it inconvenient to receive needed medical care in this setting and should not be encouraged to attend. Please contact the Family Coordinator with any questions regarding the above or any aspect of medical support available for camp participants at 207-655-3800 between 8:30am and 4:30pm Monday through Friday.

Please remit fully completed application to:

Camp Sunshine
35 Acadia Road
Casco, ME 04015

Phone: (207) 655-3800 Fax: (207) 655-3825
e-mail: info@campsunshine.org
