

## CELEBRATE SPRING

### Stained Glass Window Hanging

#### Materials

- Tissue paper
- Wax paper
- Thick black paper (construction paper or card stock)
- Iron (to be used by an adult)
- 2 towels
- Scissors
- Glue

#### Directions

1. Tear tissue paper into shapes no larger than 1"x1"
2. Take a large piece of wax paper and fold in half
3. Place the tissue paper on one half of the wax paper and fold over
4. An adult will iron the wax paper between two small towels until it has melted enough to stick the two sides together. (make sure you use a towel so the wax paper does not stick to the iron)
5. Using the black paper, draw and cut out the "frame" you would like for your window hanging
6. Attach the frame to the "stained glass" with glue
7. Cut the excess wax paper from around the frame
8. Share your completed designs with us by email:
