Physician Guidelines for Camp Sunshine

The medical guidelines for patients who wish to attend Camp Sunshine are as follows:

1. Children are considered medically acceptable to participate in the program if they can be expected to be in good general health at the time of the camp session. Children should not attend camp if they are entering into an anticipated period of significant myelosuppression. We regret that we cannot accommodate patients with renal disease who are on hemodialysis.

2. Children should undergo laboratory testing, when appropriate, prior to attending Camp. A “Late Changes” form is to be sent to camp 1-3 weeks in advance of the child’s attendance if there has been a change in clinical status or medication regimen.

3. The Physical Examination form must be completed by the child’s subspecialty team and returned along with the child’s application.

4. Children should not require any therapy during Camp other than treatment usually administered by parents, with the exception of methotrexate or colony stimulating factors.

5. Children should not require any form of special medical care during the week of Camp, e.g. transfusions.

6. Arrangements for laboratory investigations at Camp should be made in advance by the referring physician, or by the parents with the camp physician upon arrival.

7. **Children or other susceptible family members who have been exposed to varicella (chickenpox) within three weeks of a camp session cannot attend. In the event that a child or family member has been exposed to herpes zoster (shingles), please contact Camp for further guidance.**

8. **Children or family members who have received oral polio vaccine within six weeks of a camp session cannot attend.**

9. Children must be 18 years of age or younger.

If a child does not meet these guidelines, please contact the Camp Sunshine office directly so the situation can be further assessed.

It is the intent of Camp Sunshine to provide respite for your patients and their families with as little medical intervention as possible. A pediatric physician will be present at Camp to provide evaluation of acute problems. No treatment will be offered at Camp other than management of routine childhood illnesses and minor injuries. Transportation will be provided to a nearby medical facility in the event that other treatment is necessary. It is not the intent of Camp Sunshine to provide routine medical care for other family members.

Thank you for helping us to provide a unique respite experience for your patients and their families. It is our expectation that children will be qualified as acceptable for referral by their own treating physicians with the above specifications in mind. Children who do not meet the above guidelines will find it inconvenient to receive needed medical care in this setting and should not be encouraged to attend. Please contact the Family Coordinator with any questions regarding the above or any aspect of medical support available for Camp participants at 207-655-3800 between 8:30am and 4:30pm Monday through Friday.
