2022 Camp Information: Hematology/Oncology

Thank you for your interest in attending Camp Sunshine. Please note the eligibility guidelines below, which represent modifications for this summer’s in-person Family Camp programming. More information regarding the in-person program model and Camp Sunshine at Home programming can be found on our website. Pages 1–3 of the application are for families to complete. Physician forms are for the camper’s specialty team to complete.

Eligibility Guidelines

- The Camper with a qualifying diagnosis must be 18 years of age or younger. Please contact us if 2020 would have been your child’s last eligible year to attend.
- If both parents are unable to attend, a fully COVID-vaccinated second adult may attend as a support person and should be included on the application. Additional children (other than siblings of the Camper) may not attend.
- In order to maximize flexibility, the program is limited to residents of the following Northeast and Mid-Atlantic states: Maine, Massachusetts, New Hampshire, Vermont, Connecticut, Rhode Island, New York, New Jersey, Maryland, Pennsylvania, Delaware, Virginia, West Virginia, and the District of Columbia. Families may take public transportation to Camp, however all families must be prepared for unexpected and/or last-minute changes to plans related to illness.
- No individual can attend who is moderately or severely immunocompromised due to an underlying condition or its treatment. Moderate and severe immunocompromising conditions and treatments include but are not limited to:
  - Active treatment for solid tumor and hematologic malignancies (other than children with standard-risk acute lymphoblastic leukemia in remission on maintenance therapy)
  - Receipt of solid-organ transplant and taking immunosuppressive therapy
  - Receipt of CAR-T-cell therapy within 2 years
  - Hematopoietic cell transplant (HCT) within 2 years of transplantation, or taking immunosuppression therapy
  - Moderate or severe primary immunodeficiency (e.g., DiGeorge syndrome, Wiskott-Aldrich syndrome)
  - Advanced or untreated HIV infection
  - Active treatment with
    - high-dose corticosteroids (i.e., ≥1 mg/kg prednisone or equivalent per day when administered for ≥2 weeks)
    - transplant-related immunosuppressive drugs (mycophenolate, azathioprine, tacrolimus, cyclosporine, sirolimus)
    - other biologic agents that are immunosuppressive or immunomodulatory (rituximab or other B-cell depleting, or T-cell depleting therapies)
- All participants age 5 and older who are able to be vaccinated for COVID-19 will be required to be optimally protected prior to Camp, with the complete primary series and any boosters available to them. It is recommended that children under age 5 begin the vaccination series prior to Camp. You can learn about available COVID-19 vaccines here: https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html
- In addition to COVID-19 vaccines, current and complete immunization records are required for everyone 25 years of age and younger, reflecting all vaccines as outlined in the checklist that follows. For participants ages 26 and older, only a copy of the COVID vaccination record is necessary. All participants who are able to be vaccinated will be required to be optimally protected prior to Camp.
- Completed applications will be reviewed on a rolling basis until capacity is reached. Families will be accepted on a first-come, first-served basis.
What to Expect this Summer: Family Camp and COVID-19 Precautions

Family Camp is a new type of program designed to safely bring families back to Camp Sunshine this summer. During these sessions, family members will participate in all activities together as a family while maintaining physical distance from other participants at all times. Each family will be assigned a volunteer guide who will help in navigating the program and bring extra “Sunshine” to the experience. As always, meals, lodging, and activities are provided at no cost.

Family Camps are a temporary departure from traditional group programming at Camp Sunshine and are not illness-specific. Our hope is to resume traditional programming for Summer 2023. Instead of interacting with other families and volunteers, Family Camps offer the opportunity to be at Camp in a new way, enjoying activities together as a family. We hope that families who are not yet eligible to return to Camp in person, or who prefer not to participate in the new program, will participate in Camp Sunshine at Home.

Before Camp

- **COVID-19 Testing:** All participants are required to take a rapid antigen test for COVID-19 4 days prior to arrival day. You are encouraged, but not required, to test again prior to driving to Camp.
- **Notify us:** If you have symptoms of COVID-19 or have had exposure to someone with confirmed or suspected COVID-19, please call Camp to cancel.
- **Vaccinations:** Ensure that you and your family members stay up to date with COVID-19 vaccination guidance including any boosters available to you and send updates to Camp prior to your arrival. You can learn about available COVID-19 vaccines here: [https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html](https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html)
- **Minimize your exposure risk:** In addition to frequent hand washing and mask wearing, we ask that you and your family limit your risk of exposure to COVID-19 during the 14 days leading up to your Camp session. This includes avoiding mass gatherings.

**On Arrival**

- **Arrival screening:** Staff will review a symptom, exposure, and travel screening with each participant upon arrival.
- **Rapid testing:** A rapid antigen test for COVID-19 will be administered upon arrival for each participant.

**During Camp**

- **Daily screenings:** Each participant will complete a symptom screen daily at Camp.
- **Lodging:** As before, your family will stay in a private family suite. Each family suite includes a bathroom, mini-fridge, microwave, heat/AC, and can comfortably sleep six.
- **Masks:** Indoor masking will be required for participants ages 2 and older.
- **Physical distancing:** Families will participate in all activities together as a family, keeping physical distance from other participants. You will have a designated table (indoors and outdoors) for mealtimes and other activities.
- **Volunteers:** Volunteers will also follow COVID precautions, including required vaccinations, masking, and physical distancing. Parents and guardians will be responsible for caring for their children at all times.
- **Medical Care:** A medical professional will be available on-site at all times. Parents/guardians are responsible for administering any medication or other routine care to their children.

**Before Leaving Camp**

- **Rapid testing:** A rapid antigen test for COVID-19 will be administered upon departure for each participant. Participants will be notified if a positive test is obtained from any participant from their session.
2022 Application Checklist

*Please use the following checklist to ensure that your family’s application is complete.*

**Family Forms**
- Pages 1-3 of the application, to be completed by the parent/legal guardian

**Physician Forms**
- Pages 4-6 of this application, to be completed by the patient’s specialist.

**Immunization Records**
- Copies of COVID-19 vaccination records are required for all participants who are eligible to be vaccinated. All participants who are able to be vaccinated for COVID-19 will be required to be optimally protected with the initial series and any available boosters prior to Camp. You can learn about available COVID-19 vaccines here: [https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html](https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html).
- In addition to COVID-19 vaccines, current and complete immunization records are required for everyone 25 years of age and younger, reflecting all additional vaccines as outlined below.
- At a minimum, campers aged 5 years and older should meet the same immunization requirements as those for school-aged children set forth in the State of Maine School Immunization Law (20-A MRSA §§6352-6358):
  - 5 DTaP (4 DTaP if the 4th is given on or after the 4th birthday)
  - 4 Polio (if the 4th dose is given before the 4th birthday, an additional age-appropriate inactivated polio immunization should be given on or after the 4th birthday)
  - 2 MMR (measles, mumps, rubella)
  - 2 Varicella (chickenpox) or reliable history of disease
- Camp Sunshine also requires that children aged 11 and older receive the meningococcal vaccine and TDaP booster prior to attendance.

**Health History Forms**
- A separate Health History form is required for each person (including adults) planning to attend Camp, with the *exception* of the patient. The Health History forms do not require a physician signature.

**Next Steps**
- Applications will be reviewed on a first come, first served basis, once completed. Your application is complete only after all required documents are received.
- You will be contacted to confirm receipt of your application and what, if any, additional components are required in order to complete it. Please monitor your email and voicemail for correspondence from Camp.
- Acceptances and other updates will be provided as soon as possible.
A retreat for children with life-threatening illnesses and their families

This authorization shall remain in effect while we are attending Camp Sunshine at Sebago Lake in Casco, Maine.

Parent/Guardian/Other Adult ___________________________ Signature ___________________________ Date ____________

I understand and agree that information disclosed regarding any of the individuals named in this application and related documents may be disclosed or otherwise released to appropriate organizations or individuals (including, but not limited to: members of the Camp Sunshine staff, area hospitals, health care professionals and physicians) in connection with attendance at Camp Sunshine at Sebago Lake, Inc. I hereby confirm that the above information is true and accurate and that once accepted, I agree to update this information as may be requested.

I understand that Camp Sunshine reserves the right to accept or decline any application for any reason.

Parent/Guardian/Other Adult ___________________________ Signature ___________________________ Date ____________

(07/1/2022) 3
The medical guidelines for patients who wish to attend Camp Sunshine this year are as follows:

1. Children are considered medically acceptable to participate in the 2022 program if they are not considered to be moderately or severely immunocompromised, and can be expected to be in good general health at the time of the Camp session.

For these purposes, moderate and severe immunocompromising conditions and treatments include but are not limited to:

- Active treatment for solid tumor and hematologic malignancies (other than children with standard-risk acute lymphoblastic leukemia in remission on maintenance therapy)
- Hematopoietic cell transplant (HCT) within 2 years of transplantation, or taking immunosuppressive therapy
- Receipt of CAR T-cell therapy within 2 years
- Receipt of solid-organ transplant and taking immunosuppressive therapy
- Moderate or severe primary immunodeficiency (e.g., DiGeorge syndrome, Wiskott-Aldrich syndrome)
- Advanced or untreated HIV infection
- Active treatment with
  - high-dose corticosteroids (i.e., ≥1 mg/kg prednisone or equivalent per day when administered for ≥2 weeks)
  - transplant-related immunosuppressive drugs (mycophenolate, azathioprine, tacrolimus, cyclosporine, sirolimus)
  - other biologic agents that are immunosuppressive or immunomodulatory (rituximab, other B-cell or T-cell depleting therapies)

2. The Physical Examination form must be completed by the child’s subspecialty team and returned along with the child’s application.

3. Children should not require any form of special medical care during the Camp session, e.g., transfusions, hemodialysis.

4. Any family with a member who has been exposed to SARS-CoV-2 within 14 days of a Camp session cannot attend.

5. Children or other susceptible family members who have been exposed to varicella (chickenpox) within three weeks of a Camp session cannot attend. In the event that a child or family member has been exposed to herpes zoster (shingles), please contact Camp for further guidance.

If a child does not meet these guidelines, please contact the Camp Sunshine office directly so the situation can be further assessed.

It is the intent of Camp Sunshine to provide respite for your patients and their families with as little medical intervention as possible. Medical professionals will be present at Camp to provide evaluation of acute problems. No treatment will be offered at Camp other than management of routine childhood illnesses and minor injuries. It is not the intent of Camp Sunshine to provide routine medical care for other family members.

Thank you for helping us to provide a unique vacation experience for your patients and their families. It is our expectation that children will be qualified as acceptable for referral by their own treating physicians with the above specifications in mind. Children who do not meet the above guidelines will find it inconvenient to receive needed medical care in this setting and should not be encouraged to attend. Please contact the Family Coordinator with any questions regarding the above or any aspect of medical support available for Camp participants at 207-655-3800 between 8:30am and 4:30pm Monday through Friday.

Please submit a completed application to:
Camp Sunshine

CAMP SUNSHINE HEMATOLOGY/ONCOLOGY PHYSICAL EXAMINATION FORM

The following information should be provided by the Pediatric Hematology/Oncology team treating the camper.

Please return to Camp Sunshine: 35 Acadia Road, Casco, Maine 04015 P: (207) 655-3800 F: (207) 655-3825

THIS APPLICATION CANNOT BE PROCESSED UNTIL ALL THE INFORMATION BELOW IS COMPLETE.

Camper’s Name: ___________________________ Date of Birth: ____ / ____ / ____
Diagnosis: ________________________________ Date of Diagnosis: ____ / ____ / ____
Allergies: ________________________________ Date of Examination: ____ / ____ / ____

1 Cancer/Hematologic Condition
   Children on active chemotherapy or radiotherapy protocols are advised not to attend in-person for the 2022 program (other than those with standard-risk ALL in remission on maintenance therapy).
   Is the camper on active treatment?
     □ Yes: Date of most recent chemotherapy: ____ / ____ / ____ □ No: Date therapy completed: ____ / ____ / ____
   Describe any recent admissions or serious illnesses: ____________________________________________________________
   List of surgeries: _________________________________________________________________________________________
   Has the camper been under the care of a psychiatrist? □ Yes □ No Please describe any behavioral, social, emotional, or psychiatric concerns that may affect the child: _________________________________________________________________

2 Central Venous Access □ Not applicable
   Type of access: □ Internal (Portacath/Infusaport/Mediport) □ External (Broviac/Hickman) □ PICC line
   Special instructions regarding central line/port: _________________________________________________________________

3 Is the camper permitted to participate in the following activities at Camp?
   Swim in a chlorinated indoor heated pool? □ Yes □ No
   Swim in lake water? □ Yes □ No
   Engage in contact sports? □ Yes □ No
   Climb on our climbing wall? □ Yes □ No
   Are there any restrictions or suggestions for this child? _________________________________________________________
   Describe any disability or physical limitations affecting other camp activity: ___________________________________________

4 Transfusions
   Is the child on a transfusion protocol? □ Yes □ No □ Is the child likely to require transfusion during camp? □ Yes □ No
   Has the child ever had a transfusion reaction? □ Yes □ No □ Transfusion history of note _________________________________
   What are guidelines for transfusion? ________________________________________________________________
   What preparation or pre-medication is required? ______________________________________________________________

5 Bone Marrow/Stem Cell Transplantation
   Has the camper undergone hematopoietic cell transplantation? □ Yes □ No If yes: □ autologous □ allogeneic bone marrow
   □ peripheral stem cell □ cord blood Date of transplant ____ / ____ / ____
   Have there been any complications related to the transplant? _______________________________________________________

6 Brain Tumor □ Not applicable
   Does the camper have a VP shunt? □ Yes □ No □ Is it functioning? □ Yes □ No □ When was the last revision? ________
   Does the camper have seizures? □ Yes □ No □ What type and frequency? ________________________________
   Please describe any residual neurologic dysfunction: ___________________________________________________________

7 Varicella (If the following information is not complete, this application cannot be reviewed.)
   Please indicate: _____ (1) This camper is IMMUNE to varicella by reason of (check one or more):
      □ clinical disease (varicella, herpes zoster) □ positive titer □ Varivax vaccine — OR —
      _____ (2) This camper is NOT IMMUNE to varicella and the vaccine has not been administered to him/her.
   In the event of a varicella exposure at camp, will this child require Varizig and/or acyclovir? □ Yes □ No
